

Mathematics

Dear Parents,

The Math Department at Quarry Lane School has a challenging and enriching curriculum. We want to ensure each individual student is well prepared for the following school year. It's important for our students to keep up with their math skill over for the long summer break. Studies indicate that students lose a huge percentage of what they learned from the prior school year. In order to be proactive, Quarry Lane School Math Department would like to provide you with the following math grade level supplements.

These packets are for you and your child to practice during the long summer break. Each packet contains practice worksheets. Your child can do the practice worksheets at their own pace. Unfortunately, the answers will not be posted. If you need the answers or if you have any questions, please, don't hesitate to email me: asquillante@quarrylane.org.

You can download higher level packets, in addition to their appropriate grade level, if you would like to challenge your child. It is up to the discretion of your child's teacher to recommend these packets. We know with your effort and Quarry Lane School commitment, your child will be successful and be ready for the upcoming school year.

Sincerely,

Art Squillante
